SCI-FI BOOK CLUB MEETUP

Inka Terra, Stony Point

Thursday, March 19, 6 – 8pm

Join us for food, drinks, fun, and new friends - as we take a deep dive into the Mystery genre(s). Please read at least one of the following book selections:

- **SCI FI** [Land of Milk & Honey – C Pam Zhang] *A rapturous and revelatory novel about a young chef whose discovery of pleasure alters her life and, indirectly, the world. A smog has spread. Food crops are rapidly disappearing. A chef escapes her dying career in a dreary city to take a job at a decadent mountaintop colony seemingly free of the world's troubles.*
- **FANTASY** [The Great When – Alan Moore] *A new fantasy series about murder, magic, and madness in post-WWII London. Dennis Knuckleyard is a hapless 18-year-old who works and lives in a second-hand bookstore. One day, his boss & landlady sends him to retrieve some rare books, one of which should not exist – a fictitious book that appears in a real novel by another author – yet it is physically there in his hands, nonetheless.*
- **DYSTOPIAN** [Denial – Jon Raymond] *The year is 2052. Climate change has had a predictably devastating effect, yet it could be much worse. Two decades earlier, the global protest movement helped break the planet's fossil fuel dependency, and the subsequent Trials convicted the most powerful for crimes against the environment. But not all of them.*

Daring Women Doctors: Physicians in the 19th Century

This documentary provides a look at the challenging and illuminating history of 19th century women doctors. Hidden in American history, all-women's medical schools began to appear in the mid-19th century long before women had the right to vote or own property. [2020, 54min]

Chisholm '72: Unbought & Unbossed: The First Black Woman to Run for President

Recalling a watershed event in US politics, this **Peabody Award**-winning documentary takes an in-depth look at the 1972 presidential campaign of Shirley Chisholm, the first black woman elected to Congress and the first to seek nomination for the highest office in the land. Shunned by the political establishment and the media, this champion of marginalized Americans asked for support from people of color, women, gays, and young people newly empowered to vote at the age of 18. Chisholm's bid for an equal place on the presidential dais generated strong, even racist opposition. Yet her challenge to the status quo and her message about exercising the right to vote struck many as progressive and positive. [2004, 1hr 16min]
